Re: Tuition Discount For Distance Learning Students Living Anywhere

March 14, 2016

Dear New Friend & Prospective Student,

Below is some important news that should warm your heart, assist you in both your self-help and generating a fulfilling new career, benefit your wallet, and giving yourself or someone else a lifelong gift of self-healing plus a new or adjunct career.

Between March 14, 2016 to April 26, 2016, **I have reduced or discounted the tuition for all our Distance Learning programs by 20 - 55% off.** See below. Why? St. Patrick's Day was on March 17, call it the luck of the Irish. Or, we want to assist you in following your leprechaun or rainbow dream(s) to a big pot of gold. Another reason for the discount is because of Earth Day, we are declaring this Spring an international time of NHI tuition discount. Spring is the time of renewal, regeneration, change, Spring "greens," and growth. We can help you generate Spring "greens" and the leprechaun's gold energy via a career in wholesome, (w)holistic, and (w)holy healing.

Becoming a health therapist contributes to each person's -- and your clients' -- personal, holistic, religious and/or spiritual path to full realization and holistic health.

The government has strongly suggested that people should consider going to a vocational college to learn a new or second career. **Important Notes:** Holistic health and natural healing remains the 2nd fastest growing industry in the U.S. This is the absolute best time in history to become a natural healthcare practitioner!

Enrolling in NHI vocational college:

- Our mission has always been to sincerely provide the highest quality training possible both for your professional development and for personal/family growth - helping yourself and others - all while at the most reasonable, accessible tuition possible. Our graduates experience enhanced income, greater personal growth, and more meaning and connection in life.
- Students can enroll and study anywhere, including internationally. NHI is drawing more students worldwide due to the increase in popularity of holistic health, natural healing, and web access.
- I am invoking the spirit and passion of Spring: the time of a warm, caring heart, education, renewal, and transformational change leading to fulfillment -- helping you find your professional and self-help passion to benefit you, your family, friends, clients, and others. Give yourself and others the true gift that heals -- a natural healing profession.

VERY IMPORTANT NOTES & DISCOUNTS:

Note: You will be trained how to conduct your new career via the telephone from your house (very convenient and low overhead), from a business office, wellness center, with an MD, DC, L.Ac., P.T., R.N., etc.

Note: For each of the last 18 years, we have offered one of the three largest and most respected Residential training in Clinical Nutrition in the U.S. qualifying for Certification and also trademarked as **Certified Nutritionist Consultant (CNC)TM**; one of the three largest and most respected Residential training in Clinical Herbology in the U.S. qualifying for Certification and also trademarked as **Certified Clinical Master Herbalist (CCMH)TM**; and the largest and most respected Residential training in **Holistic Health Practitioner (HHP)** qualifying for Certification/License. We were the first college or institute in the U.S. to have a State-Approved Aromatherapy training, which also qualifies you for Certification and also trademarked as a **Certified Clinical Master Aromatherapist (CCMA)TM**. Our *comprehensive* Naturopathy program has been State-Approved since 2003 and qualifies you as a **Certified Naturopathic Practitioner (NP)**.

We are now making available our audio files of all of our excellent Residential trainings, classes, and programs that relate to the program you are enrolling in. Again, all the audio files of classes here at our Residential NHI that relate to the program you are enrolling in will be made available. Each program has many different audio files with HHP and NP being far more extensive.

Note: Inclusion of the audio tapes is a highly significant value addition at no extra charge! This inclusion equates to being present in the classroom with a very significant savings of time, tuition, travel and convenience expense.

Note: To receive your Distance Learning Discount, please include this with your enrollment application.

Note: Be sure we have your e-mail address for our free Newsletters which include our Fun Health Facts.
