Re: Tuition Discount For New Distance Learning Students Living Anywhere

February 8, 2021

Dear New Friend & Prospective Student,

Below is some important news that should warm your heart, assist you in both your self-help and generating a fulfilling new career, benefit your wallet, and giving yourself or someone else a lifelong gift of self-healing plus a new or adjunct healing career.

From now to February 28, 2021, ***I have reduced or discounted the tuition for all our Distance Learning programs by 33 - 67% off!! See below!! Note after March 1, rates will increase for most programs & books.***

Why? We are declaring this as an international time of NHI tuition discount. Why? I am invoking the spirit of Valentine (helping you find your professional and self-help passion) to benefit you, your family, friends, clients, and others. These ***very deep discounts*** are offered as a way of giving thanks and appreciation for twenty-five years of successful Programs. The fulfilling passion of Valentine's symbolizes the most meaningful gifts, enhanced income, greater personal growth, more meaning and connection in life, more heart, transformations, and ***fulfillment***. ***Also, because of Covid, we make it easy for you to effectively learn and then professionally work at home or anywhere in the world.***

We can help you benefit yourself, your family, friends, clients, and others via a career in wholesome, (w)holistic, and (w)holy healing. Becoming a health therapist contributes to each person's -- and your clients' -- personal, holistic, religious and/or spiritual path to full realization and holistic health.

****** • Note: You go at your own pace -- some people are quicker and some take longer! Self-paced!!***

The government has strongly suggested that people should consider going to a vocational college to learn a new or second career. ***Important Notes:*** Holistic health and natural healing remains the 2nd fastest growing industry in the U.S. Education and self-help information has become the third fastest growth industry. Government statistics show even reported health care in the U.S. is more than 1/6 of the budget and health care needs are growing exponentially. People want effective, safe, lower cost health care. ***This is the absolute best time in history to become a natural healthcare practitioner and health educator!!***

Enrolling in NHI vocational college:

- Our mission has always been to sincerely provide the highest quality training possible both for your professional development and for personal/family growth - helping yourself and others - all while at the most reasonable, accessible tuition possible. Our graduates experience enhanced income, greater personal growth, and more meaning and connection in life.
- ***Students can enroll and study anywhere, including internationally.*** NHI is drawing more students worldwide due to the increase in popularity of holistic health, natural healing, and web access.
- ***Note: All five of our Distance Learning Programs are definitely the most in-depth, most comprehensive, and proven by several thousand successful graduates! See Important Notes & Discounts on next page!***
- This is the time of a warm, caring heart, education, and ***fulfillment***. Give yourself and others the true, enduring gift that heals -- a natural healing profession.

- **** • **Note:** You go at your own pace -- some people are quicker and some take longer! Self-paced!!!
- *** All of our programs have been fully, Professionally Accredited by the Board of the national American Association of Drugless Practitioners (AADP), Donald Rosenthal, M.D., N.D., Executive Director. Also, by the California Naturopathic Association (CNA) and Candidate for full Certification by the national American Naturopathic Medical Accreditation Board (ANMAB).

VERY IMPORTANT NOTES & DISCOUNTS. SEE BELOW!!

Note: You will be trained how to conduct your new career via the telephone from your house (very convenient and low overhead), from a business office, wellness center, with an MD, DC, L.Ac., P.T., R.N., etc.

Note: For each of the last 25 years, we have offered one of the three largest and most respected Residential training in Clinical Nutrition in the U.S. qualifying for Certification and also trademarked as **Certified Nutritionist Consultant (CNC)**TM; one of the three largest and most respected Residential training in Clinical Herbology in the U.S. qualifying for Certification and also trademarked as **Certified Clinical Master Herbalist (CCMH)**TM; and the largest and most respected Residential training in **Holistic Health Practitioner (HHP)** qualifying for Certification/License. We were the first college or institute in the U.S. to have a State-Approved Aromatherapy training. This program qualifies you for Certification and is trademarked as a **Certified Clinical Master Aromatherapist (CCMA)**TM. Our *comprehensive* Naturopathy program qualifies you as a **Certified Naturopathic Practitioner (NP)**. Our Residential College was state-Approved in 1997 and all five of our Distance Learning Programs were state-Approved in 2003. In 2016, we transitioned to fully Professionally, Nationally Accredited. See above.

***** • **Note:** We made available our audio files of all of our excellent Residential trainings, classes, and programs that relate to the program you are enrolling in. All the audio files of classes here at our Residential NHI that relate to the program you are enrolling in will be made available **FREE. NO CHARGE!** Listening is optional -- not required. Each program has many different audio files with HHP and NP being most extensive.

Note: Inclusion of the audio recordings is a highly significant value addition at no extra charge! This inclusion equates to hearing the excellent, in-depth classes with a very significant savings of time, tuition, travel expenses and convenience. Plus, you get to hear the spontaneous questions and answers!

*** • **Emphasized Note:** You go at your own pace--some people are quicker and some take longer! Self-paced!!

Note: Be sure we have your e-mail address for our free Newsletters which include our Fun Health Facts.
